

FCC12 Meeting Minutes
10/9/08

The meeting was called to order a little after 7 pm by Chairperson, Phil Pearson at the Hospital in Palm Coast. Sandra participated by conference call. In attendance were:

Members	Guests	APD
Philip Pearson	Isabelle Ammirata	Sandra Mills - Liason
Irene Gallo	Rosemary Revoir	

The minutes were reviewed and approved from the September meeting.

A request for input for the next mailing was made as well as requests for resources for the library and recommended providers.

Under New Business, a request for an FCC representative for the transition fair was made. Some discussion ensued regarding the importance of FCC representation at these events. Since there is no funding for the wait list and since most of the people transitioning from high school will be or are on the wait list, we must do a better job of communicating the urgency of this situation to families. They must get involved in the local FCC.

I discussed my meeting with Representative Proctor, reiterating his message that we need a consistent message when we talk with representatives and senators regarding the situation of our folks. It was suggested that we create a template for others to talk from and also include representative letters in the next newsletter.

We reviewed the proposed FCC 12 plan and approved it. We discussed doing more with reviewing APD policies.

Elections are coming up and we need to fill Chairperson, Vice Chairperson, and Treasurer positions. We talked about co-chairs from each county. In reality, this could be accomplished by having the chairperson and vice chairperson represent the different counties. I indicated that I would run for the treasurer position.

Sandra provided us with a short APD update.

Respectfully Submitted

Philip A. Pearson
